

I would like to take the opportunity to outline a brief description of our company.

Our company was set up in 2001, after Darragh qualified with an honours HND in horticulture from Writtle College in Essex (UK). We are a member of ALCI, The Association of Landscape Contractors of Ireland. This body promotes the high standard of work across the landscape industry in Ireland. To date, we have received 2 awards from ALCI for our work.

We are a flexible company and understand our client's needs & requirements. Our staff are all uniformed on site and are fully up-to-date with all Health & Safety procedures required. We have full risk assessments for all tasks carried out during the working day. Familiarity is key to any contract, so the same staff will be on site. If there is a change of staff for any reason ie. Holidays etc. notification will be made.

We carry out the complete garden maintenance contract for a major embassy in Dublin and have been for the past 7 years. References provided upon request.

We also carry out many maintenance contracts for several office blocks, residential and commercial clients.

All of our machinery is of a top class standard and is serviced on a regular basis. We operate using the industry's leading manufacturers of machinery to carry out our work. This produces top class results for you to enjoy. We are highly skilled, professional and efficient in carrying out all duties.

Our company mission statement is "All our work is carried out thoroughly, to the highest standard and we take pride in doing so. Our business is built through client referral and satisfaction"

# GARDEN MENU 2015

Our business is built through client referral and satisfaction. All our work is carried out thoroughly, to the highest standard and we take pride in doing so.
